## **1. Overview of Business Results, etc.**

### **(1) Overview of Business Results for the Fiscal Year under Review**

In fiscal 2019, which extended from April 1, 2019 to March 31, 2020, the Japanese economy continued to show steady corporate earnings and employment trends, but prolonged U.S.-China trade friction and the global spread of COVID-19 resulted in a persistent downturn, as with economies overseas.

Under these circumstances, net sales of the broadcasting field where the Asahi Broadcasting Group (the Group) conducts its core business increased due to the addition of newly consolidated subsidiaries in addition to an increase in TV network sales and other factors despite a decrease in TV spot advertising sales. Net sales of the housing business were down due to a decrease in revenue from the advertising business and other factors. Net sales of the golf business increased due to an increase in registration fee income upon new membership recruitment and other factors.

As a result of these factors, the Group's net sales for the fiscal year ended March 31, 2020 increased ¥950 million, or 1.2%, compared to the previous fiscal year and amounted to ¥82,937 million. From the cost standpoint, cost of sales increased ¥1,496 million (2.8%) compared with the previous fiscal year, to ¥54,959 million. Selling, general and administrative expenses increased ¥328 million (1.4%) compared with the previous fiscal year, to ¥24,588 million.

As a result of the above, operating income for the period decreased ¥874 million, or 20.5%, to ¥3,388 million, while ordinary income totaled ¥3,633 million, a decrease of ¥958 million, or 20.9%. Additionally, while ¥1,837 million of extraordinary income due to gain on sales of shares and gain on sales of real estate properties for business in the housing business was recorded, ¥1,776 million of extraordinary loss due to loss on venue closing in the housing business and impairment loss on goodwill, etc. was recorded.

As a result, income before income taxes were ¥3,694 million, a decrease of ¥797 million, or 17.8%, and profit attributable to owners of parent was ¥2,278 million, a decrease of ¥1,464 million, or 39.1%.

Results by business segment are as follows:

#### *Broadcasting Business*

In the fiscal year under review, net sales in the broadcasting business totaled ¥69,605 million, up ¥1,054 million, or 1.5%, compared to the previous fiscal year. While TV spot advertising sales decreased, revenue increased due to the addition of newly consolidated subsidiaries in addition to an increase in TV network sales on a robust performance by nationwide network programs. On the other hand, operating expenses increased 2.9% from the previous fiscal year, due to an increase in cost of sales in conjunction with the new consolidation. As a result, operating income amounted to ¥2,516 million, a decrease of ¥959 million, or 27.6%, from the previous fiscal year.

#### *Housing Business*

In the housing business, net sales amounted to ¥12,372 million, a decrease of ¥173 million, or 1.4%, compared with the previous fiscal year. The principal factor was a decrease in revenue from the advertising business. Meanwhile, operating expenses dropped 1.9% mainly from the effect of the closing of housing exhibition facilities in the previous fiscal year. As a result, operating income amounted to ¥1,101 million, an increase of ¥41 million, or 4.0%, from the previous fiscal year.

#### *Golf Business*

Net sales in the golf business amounted to ¥960 million, an increase of ¥69 million, or 7.8%, compared with the previous fiscal year. The principal factor was an increase in registration fee income upon new membership recruitment. On the other hand, operating expenses rose 2.6% due to increases in selling expenses, labor expenses, and other expenses. As a result, operating income amounted to ¥72 million, an increase of ¥43 million, or 152.1%, from the previous fiscal year.

## **(2) Overview of Financial Position for the Fiscal Year under Review**

### *(Assets)*

Total assets as of the end of the fiscal year under review were ¥114,786 million, ¥6,997 million higher than at the end of the previous fiscal year (March 31, 2019). This was attributable to an increase in cash and deposits in line with the issuance of bonds and new consolidations.

### *(Liabilities)*

Total liabilities were ¥45,694 million, ¥4,956 million higher than at the end of the previous fiscal year. The principal reason for the increase in liabilities was the issuance of bonds.

### *(Net Assets)*

Consolidated total net assets came to ¥69,091 million, ¥2,041 million higher than at the end of the previous fiscal year. This was mainly attributable to an increase in non-controlling interests due to the consolidation of DLE, Inc., MASH CORPORATION, etc.

## **(3) Overview of Cash Flows for the Fiscal Year under Review**

For the fiscal year under review, net cash provided by operating activities totaled ¥4,546 million. Net cash provided by investing activities was ¥2,655 million, and net cash provided by financing activities came to ¥3,203 million. Accounting for each of these activities, the ending balance of cash and cash equivalents stood at ¥26,643 million, an increase of ¥10,404 million compared with the end of the previous fiscal year. In specific terms, cash flow activities are presented as follows.

### *(Cash Flows from Operating Activities)*

Net cash provided by operating activities was ¥4,546 million (an inflow of ¥3,286 million during the previous fiscal year) due to the recording of income before income taxes and depreciation and amortization despite payment of income taxes.

### *(Cash Flows from Investing Activities)*

Net cash provided by investing activities was ¥2,655 million (an outflow of ¥2,394 million during the previous fiscal year) due to proceeds from sales of investment securities and other proceeds despite purchase of property, plant and equipment.

### *(Cash Flows from Financing Activities)*

Net cash provided by financing activities was ¥3,203 million (an outflow of ¥53 million during the previous fiscal year) due mainly to the issuance of bonds.

**(4) Future Outlook**

At present, it is extremely difficult to forecast when the spread of COVID-19 will recede, the status of recovery of economic activity after the virus recedes, etc. For this reason, the Company has judged that it is difficult to calculate consolidated financial results forecasts for fiscal 2020 in an appropriate and reasonable manner at present, and therefore consolidated financial results forecasts are undetermined. In future, the Company will promptly disclose consolidated financial results when it becomes possible to calculate forecasts in an appropriate and reasonable manner.

**(5) Significant Events regarding Going Concern Assumptions**

Not applicable.

**2. Rationale behind the Choice of Accounting Standards**

To sustain comparability of consolidated financial statements between periods as well as between companies, the Group shall, for the time being, prepare consolidated financial statements under Japanese GAAP.

(Segment Information)

### 1. Description of Reportable Segments

The reportable segments of the Group are its constituent units for which separate financial information is available and which are subject to periodic examination in order for the Board of Directors to determine the allocation of management resources and evaluate financial results.

The Group maintains three reportable segments with business activities undertaken primarily in the broadcasting, housing, and golf club business fields.

The broadcasting business comprises television, radio, and related broadcasting activities. The housing business is made up of housing exhibition site operating and related activities. The golf club business includes golf club operating activities.

### 2. Calculation Method of Measurements of Sales, Profit, Loss, Asset, Liability and Other Items for Each Reportable Segment
