## 1. Analysis of Operating Results and Financial Position

### (1) Analysis of Operating Results

In the first half of fiscal 2020, which extended from April 1, 2020 to September 30, 2020, the Japanese economy showed a significant downturn due to the spread of COVID-19, as with economies overseas. Though there were signs of resumption of economic activity, the economy failed to recover fully as it was still difficult to forecast when COVID-19 would recede.

Under these circumstances, net sales of the broadcasting field where the Asahi Broadcasting Group (the Group) conducts its core business decreased due to a large decrease in TV spot advertising sales, the mainstay of the business. Net sales of the housing business were down due to the reduction of exhibition fees during the period of facility closures as a measure against COVID-19 and other factors. Net sales of the golf business decreased due to a decrease in play revenue owing to a decrease in the number of visitors attributable to the spread of COVID-19 and other factors. As a result of these factors, the Group's net sales for the first half of fiscal 2020 decreased ¥7,151 million, or 17.8%, compared to the same period of the previous fiscal year and amounted to ¥33,077 million.

From the cost standpoint, cost of sales decreased ¥3,538 million (13.2%) compared with the same period of the previous fiscal year, to ¥23,358 million. Selling, general and administrative expenses decreased ¥1,128 million (9.4%) compared with the same period of the previous fiscal year, to ¥10,836 million. As a result of the above, operating income decreased ¥2,484 million to an operating loss of ¥1,118 million, while ordinary income decreased ¥2,408 million to an ordinary loss of ¥900 million. Additionally, as extraordinary loss, ¥57 million in special retirement expenses and other losses were recorded. As a result, income before income taxes decreased ¥2,397 million to a loss before income taxes of ¥970 million, and profit attributable to owners of parent decreased ¥1,470 million to a loss attributable to owners of parent of ¥604 million.

Results by business segment are as follows:

#### *Broadcasting Business*

Net sales in the broadcasting business totaled ¥27,740 million, down ¥6,452 million, or 18.9%, compared to the same period of the previous fiscal year. The principal factor accounting for this decrease in revenue was a large decrease in TV spot advertising sales, the mainstay of the business, due to the impact of the spread of COVID-19. On the other hand, operating expenses decreased 13.6% from the same period of the previous fiscal year, due to factors including a decrease in program expenses. As a result, operating income decreased ¥2,008 million from the previous fiscal year to an operating loss of ¥1,008 million.

#### *Housing Business*

In the housing business, net sales amounted to ¥4,970 million, a decrease of ¥546 million, or 9.9%, compared with the same period of the previous fiscal year. The principal factor was the reduction of exhibition fees during the period of facility closures due to the spread of COVID-19. Meanwhile, operating expenses dropped 4.1% due to the impact of reduced sales promotion activities during the self-restraint period to prevent the spread of COVID-19. As a result, operating income amounted to ¥116 million, a decrease of ¥338 million, or 74.4%, from the same period of the previous fiscal year.

#### *Golf Business*

Net sales in the golf business amounted to ¥366 million, a decrease of ¥152 million, or 29.4%, compared with the same period of the previous fiscal year. The principal factor was a large decrease in the number of visitors attributable to the impact of COVID-19. On the other hand, operating expenses dropped a mere 8.1%, and as a result operating income decreased ¥129 million from the previous fiscal year to an operating loss of ¥68 million.

## **(2) Analysis of Financial Position**

### *(Assets)*

Total assets as of the end of the second quarter of fiscal 2020 were ¥119,631 million, ¥4,845 million higher than at the end of the previous fiscal year (March 31, 2020). This was primarily attributable to the impact of the acquisition of investment securities in line with the issuance of bonds.

### *(Liabilities)*

Total liabilities were ¥50,905 million, ¥5,210 million higher than at the end of the previous fiscal year. The principal reasons for the increase in liabilities were the issuance of bonds and an increase in short-term loans payable.

### *(Net Assets)*

Consolidated total net assets came to ¥68,726 million, ¥365 million lower than at the end of the previous fiscal year. This was attributable to recognition of loss attributable to owners of parent and payment of dividends from surplus, despite increases in valuation difference on available-for-sale securities and other account items.

## **(3) Explanation of Forward-Looking Statements, including the Outlook for Consolidated Performance**

The forecasts for net sales, operating income, ordinary income, and profit attributable to owners of parent remain unchanged from the previous consolidated financial forecasts for the full fiscal year.

On October 22, 2020, Quibi Holdings, LLC, whose securities are held as investment securities by Pegasus Tech Ventures Company III, L.P., a specified subsidiary of the Company, announced that it would suspend its business in the United States. The impact of this event on the consolidated financial results is currently under examination and it is difficult to calculate it in a reasonable manner at present. Therefore, the consolidated financial forecasts for the full fiscal year will be announced later when the detailed amounts are known and revisions become necessary.

The dividend forecasts for the full fiscal year were undetermined in the Consolidated Financial Report for Fiscal 2019 (The Fiscal Year Ended March 31, 2020 under Japanese GAAP) announced on May 22, 2020. The Board of Directors held on November 6, 2020 resolved that the interim dividend for the current fiscal year (the end of the second quarter) would be ¥5.00, down ¥4.00 from the previous year's interim dividend of ¥9.00. The year-end dividend forecast is ¥5.00, down ¥4.00 from the previous year's year-end dividend, resulting in an annual dividend of ¥10.00 per share, down ¥8.00 from the previous fiscal year.

The Company positions the return of profits to shareholders as one of its important measures for corporate management. Therefore, it is important to deliver stable shareholder returns over the medium- to long-term, taking into comprehensive consideration business performance and the level of equity required in the future.

For details on the dividend forecasts, please refer to the Notice of Dividends from Surplus and Revisions of Dividends Forecasts announced today (November 6, 2020).

\*The forecasts presented above were prepared based on the assumptions, beliefs, and uncertainties in light of information available to the Group's management as of the publication date. Actual results may turn out to be different from the forecasts due to a variety of factors in the future.
