*Beginning with the FY3/2026, revenue from TV program streaming, etc., of ABC TV will be moved from broadcasting business revenue to content business revenue. Therefore, broadcasting and content business revenues for FY3/2025 are for reference, calculated using the same method.

Dividends (Dividend Policy)

In line with our dividend policy, the Company has set interim dividend at 8 yen per share and forecasts year-end dividend of 10 yen (annual dividend of 18 yen).

Returning appropriate levels of profits to all shareholders is one of the most important management issues for the Company. With respect to the distribution of profits, given the Company's responsibility as a certified broadcasting holding company, it will take into comprehensive account factors such as operating results, the dividend payout ratio, and an appropriate level of internal reserves, while also constantly being aware of the balance between strengthening and maintaining the Company's financial position and making investments for supporting increases in corporate value and growth strategies. In accordance with this policy, the Company plans to flexibly make decisions for continuous and stable dividend payment, targeting a dividend payout ratio of 30% for profit after deducting the amount equivalent to the effective statutory tax rate from consolidated operating profit, which indicates profit from the core business of the Group (deemed net profit). Moreover, the Company has set an annual dividend of 12 yen per share as the lower limit except in times of a significant decline in business performance due to a rapidly deteriorating business environment.
